Art Unit: 2161

This is in response to Applicant's amendment filed on June 30, 2006 in which claims 1, 2, 15, 21 were amended and claims 5, 22 and 24 were canceled.

Status of Claims

Claims 1-4, 6-21 and 23 are pending; of which, claims 1 and 21 are independent claims.

Response to Arguments

Applicant's arguments filed on the aforementioned date have been fully considered but they are not persuasive. Therefore, the rejection of claims 1-4, 6-21 and 23 under sections

Applicant's arguments, filed on the aforementioned date, with respect to the rejection(s) of claim(s) 1-4, 6-21 and 23 under sections 102 and 103(a) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made under section 35.U.S.C. 101 because the method of the independent claims is not embodied in a computer or is not computer implemented.

The rejections follows:

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim1-4, 6-21 and 23 are rejected under 35 U.S.C. 101 because the claimed invention is not supported by either a computer, a asserted utility or a well established utility.

In particular, although a database is provided to store SPC control charts and tables, the claims are not clear whether the database takes part in creating and determining new control charts without human interaction. The claims can be interpreted to have a database provided separately or elsewhere and a human can use the data stored in the database to achieve the claimed limitations such as, determining, updating and creating charts. Therefore, claims 1-4, 6-21 and 23 are directed to an abstract idea that is not embodied on a computer-implemented medium or otherwise tangible medium or executed on a computing system, nor is it otherwise tangible.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
